## **SPACES FOR INTERCULTURAL CITIZENSHIP**

**Tools, Experiences, Opportunities for a new integration**

**Presentation and simulation of IT'S YOU products**

The **IT'S YOU** project, funded by the Erasmus+ Programme and implemented by an international partnership coordinated by Aretés, is aimed at Youth Workers working with young Europeans and non-Europeans, young people with a migration background and second generations. The project works in particular with Youth Workers engaged in intercultural education: a pioneering, emerging profession that is still little recognised and supported. The IT'S YOU project provides 2 new tools to foster intercultural citizenship: a Social Network and a Gamification Platform.
